REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Sutton District:

In the year 1935-36 the work of the schools of this district went forward with usual good success. The three experienced teachers employed were Miss Christina M. Young, K.N.S. '29 at the Mills School, Miss Helen E. Holmes, P.N.S. '28 at the North School, and Miss Ruth S. Colby, P.N.S. '33 at the South School. The music supervisor was Miss M. Elaine Ellis, K.N.S. '31. Following are the register summaries of the attendance during the year.

REGISTER SUMMARIES, 1935-36

	Mills	North	South	Total	Total 1934 1935
Half-days in session	360	360	360	1080	1078

No. visits Superintendent	21	21	22	64	56
No. visits Citizens	37	70	115	222	209

* Unrepeated registration in the district.

It may be noted from the foregoing table that every school had 360 half-days attendance, the full number required by law. The per cent of attendance was good, only 4 per cent lower than last year. The number registered and average membership remain about the same.

The total unrepeatd registration of the district was 80, all Sutton residents. Other pupils residing in the district but attending elementary or high schools in other districts numbered 38, as follows:

Elementary: Bradford 3, Warner 13; High School: Henniker 2, New London 6, Warner 14. The total number of pupils residing in the district and attending public schools was therefore 118. This is ten more than last year.

The annual health inspection was made by the School Nurse, Miss Ruth B. Whitcomb. Three of the four cases of defective vision found had the defects corrected. Forty-two pupils had defective teeth. There were ten corrections. Of the four cases of diseased tonsils one was corrected. Six were found with enlarged glands and four were corrected. A total of 63 pupils was examined. Four children were immunized for diphtheria. A toxoid Clinic was held at the Town Hall in May and four children were treated.

At the South school there is need of a larger wood shed, with better arrangements for toilets. The present shed will not contain a year's supply of wood. In order to put in as much wood as possible it has to be piled so that it partially obstructs the passage to the boy's toilet. There is a possibility of sticks of wood falling down from above upon pupils going through the passage.

Within a few years it will probably be necessary to replace the tanks in the chemical toilets of all the schools. When this time arrives we would recommend the consideration of a new type of septic tank in place of the present chemical tanks. Only a pail or two of water per day are required to operate these

tanks and after the first cost of installation there is little cost of operation. The present cost of chemical for a year amounts to forty or fifty dollars. If the shed at the South school is enlarged, it would be well to keep in mind the change in toilets or even to install a septic tank at once if funds are available. It would be better to make the change at one school each year than to incur the expense for toilets for all the schools at the same time.

At the Mills school the shelves where the supplies are kept should be closed by doors so that they may be locked. The present arrangement where all the supplies are open to access by the pupils is unsatisfactory.

Many districts in the state have found very satisfactory the plan of putting all or nearly all the pupils of the upper grades in one school and the lower grades in other schools. Each teacher may then be especially prepared for the grade of work required, and more time allowed for each class and individual work. This would result in considerable gain in efficiency at a small additional cost of transportation. This plan is worth considering for Sutton district.

During the year the parents, pupils, teachers, and board have joined in making the work of the schools pleasant and profitable for the pupils. We greatly appreciate this cooperation.

Respectfully submitted,

JOHN A. SINCLAIR,
Superintendent of Schools.
